#### Weekly variety performance for region

Variety	%	CCS	Variety	%	CCS
Q240			WSR17		
KQ228			Q208		
Q183			Q232		

#### Comments:

While there were only occasional light showers and drizzle, ground conditions remained far too wet to enable harvesting to occur this week.

All factories are planning to re-start operations on Monday 17 July.

Residents are reminded that loco movements continue even during wet weather shutdown periods, so please continue to take care at level crossings and make sure children stay well clear of the cane rail corridor.
