Comments:

The Burdekin mills processed just over 360,000 tonnes of cane for the week, bringing the season-to-date total to more than 1.1M tonnes.

This represents just over 13% of the budgeted crop.

Invicta Mill's cane supply was restricted due to persistent wet field conditions.

The average weekly CCS was 13.6, which was above budget.

The highest CCS sample of 16.3 was from a rake of Q240-P in the Jardine (Invicta) productivity district.

Please remember to be aware at rail crossings as a fully loaded cane train can take up to one kilometre to stop.
