Comments:

All Burdekin mills continued to settle this week. Teams have been focusing on increasing rates and minimising unplanned stops.

Throughput for the week was just over 355,000 tonnes, which is above budget.

CCS increased this week with the dry cooler conditions and a reduced proportion of standover, however it is still slightly below budget.

The cane season is now in full swing and motorists are reminded of the importance of giving way to cane trains.
