Comments:

All mills restarted last weekend after the rain and ramped up production to budgeted rates quickly.

Throughput for the week was just over 385,000 tonnes, which was above budget. It also put the Burdekin ahead of budget again for the season.

CCS increased for the week and was also above budget. Invicta and Pioneer mills have processed approximately 60% of the standover cane in their milling areas and Kalamia has processed about 85%.

With the start of the school holidays, parents and carers should alert their children to the dangers of playing on or around our cane railway network.
