Comments:

Throughput for the week was just over 273,000 tonnes bringing the season total to just over 2.5M tonnes.

A rain event on Wednesday night delivered up to 40mm across the district, impacting supply to all factories.

Kalamia was the least impacted, losing only 12 hours to wet weather. A scheduled clean and repairs to boiler tubes also contributed to downtime for the week.

Inkerman and Pioneer both shut down early Thursday morning due to wet paddocks. Invicta lost around 45 hours through wet weather and a further seven hours due to a faulty electricity supply cable.

Despite the rain impact and unplanned stops, the Burdekin is still ahead of budget overall.

CCS was slightly ahead of budget this week. The highest CCS recorded for the week was 17.1 from a rake of Q240 1R in the Leichhardt productivity district.

Parents and carers are asked to remind children to stay away from the cane railway system. Members of the public are urged to report any suspicious activity around our cane rail line to the police.
