#### Comments:

Throughput for the week was just over 370,000 tonnes. This brings the total for the season to date to 3.95M tonnes, which is just ahead of the budgeted total of 3.93M tonnes.

Pioneer lost nearly eight hours in total with an injection water pump issue. Rate slowed towards the end of the week as the factory headed towards a clean.

Both Inkerman and Kalamia mills had cleans last week with Inkerman also losing about six hours after a collapsed roller on a bagasse conveyor started a small fire. Invicta B side also had a clean which had to be extended by 12 hours to carry out repairs on Boiler 3.

CCS increased again from last week to be just above budget. The highest CCS recorded for the week was 18.3 from a rake of Q240 plant in the Mulgrave productivity district.

Parents and carers are asked to remind children to stay away from the cane railway network. Members of the public are urged to report any suspicious activity around our cane rail line to the police.
