Comments:

The Burdekin mills have now processed a total of 5.74M tonnes of cane.

Throughput for Week 16 was just over 354,000 tonnes of cane in a week that included a cleaning intermission at both Kalamia and Inkerman mills.

There were unscheduled stops at Pioneer Mill last week to carry out repairs.

Average weekly CCS was 15.58, which is 0.52 of a unit above budget.

The highest CCS recorded for the week was 18.40 from a rake of Q183 first ratoon supplied from the Mulgrave productivity district.

With school holidays under way, parents and carers are asked to remind children to stay away from the cane railway network.

Trains cannot swerve or stop quickly. It is up to drivers, cyclists and pedestrians to give way at rail crossings. Always obey crossing signals, warning lights and signage, and never attempt to cross if a train is approaching.

Please remember to use your train brain and always give way to cane trains.
