KQ228	14	15.25	WSRA17	4	15.33
Q183	7	16.14	SRA23	3	14.99

Comments:

The Burdekin mills have now processed more than 6M tonnes of cane for the season to date.

Throughput for week 17 was just over 373,000 tonnes of cane in a week that included a cleaning intermission at Pioneer Mill and a scheduled stop at Kalamia Mill.

Average weekly CCS was 15.54, which is 0.42 of a unit above budget.

The highest CCS recorded for the week was 18.00 from a rake of Q208 third ratoon supplied from the Barratta productivity district.

We had a concerning incident last week where a member of the public parked too close to the cane rail line and one of our locos struck the trailer attached to the vehicle.

Fortunately, no one was hurt, but the incident serves as a timely reminder of the need to keep clear of our rail corridor. Pedestrians, cyclists and motorists must maintain three metres of separation from the centre line of our track.

With school holidays under way, parents and carers are asked to remind children not to play on or around our cane railway network.

Members of the public are urged to report any suspicious activity around our cane rail line to the police.
