Variety	%	CCS	Variety	%	CCS
Q240	60	15.47	Q208	7	16.24
Q183	12	15.49	KQ228	7	14.57
WSRA17	10	14.90	Q232	2	15.54

Comments:

Congratulations to the teams at Pioneer and Invicta mills on the successful completion of the 2026 season.

The last cane was tipped at Invicta Mill at 12.43am Sunday 25 October, bringing the season to a close for the factory and for the Burdekin region.

Throughput for week 21 was just over 141,000 tonnes of cane, bringing the season total to 7.33M tonnes.

CCS finished the season at 15.05 units. Total cane tonnes averaged 106 tonnes per hectare.

The highest CCS recorded for the last week of the season was 18.10 from a rake of Q183 second ratoon supplied from the Mulgrave productivity district.

Even though the crushing season is now over in the Burdekin, trains will continue to run as we store and secure bins. We've also started moving track maintenance equipment around the network.

On behalf of our team at Wilmar Sugar and Renewables, thank you to the growing and harvesting sectors for your support during the season.

Chris Scovazzi
