Variety	%	CCS	Variety	%	CCS
KQ228	34	13.02	Q208	6	10.98
Q240	29	12.52	Q252	1	11.65
Q183	19	12.29	Q253	1	10.40
Q232	10	11.64			

Comments:

Consistency of crushing operations improved this week as ground conditions continue to dry out. Some harvesting contractors are still reporting wet paddocks are affecting their output.

Total throughput of just under 370,000 tonnes was achieved for the week, even with extended stops at Inkerman and Kalamia to carry out necessary repairs.

The highest CCS sample was 16.00 from a rake of KQ240 plant cane recorded in the Inkerman area.

Parents and carers are asked to remind children about the dangers of playing near railway lines during these school holidays.

John Tait
Cane Supply Manager
Burdekin Region
