### Comments:

The Burdekin mills processed just over 185,000 tonnes this week.

Kalamia Mill crushed out early on Thursday morning, making it the second Burdekin site to finish for the 2020 season.

Total throughput at Kalamia was 1.53 million tonnes with an additional 68,000 tonnes transferred to Invicta throughout the season.

Average weekly CCS remains steady at 14.9 units, which is above budget.

The highest CCS sample was 18.30 from a rake of Q183 third ratoon cane in the Inkerman area.

Pioneer and Inkerman are expected to crush out by the end of this week.
