Comments:

Throughput for the week was just under 380,000 tonnes.

This was above budget even though Inkerman Mill did not come back online until Tuesday, following corrective work to the steam-water separators in the boiler drum.

Invicta Mill recorded the best weekly throughput for the year, of just over 160,000 tonnes.

Total throughput for the season to date is now just under 2.75 million tonnes.

Average weekly CCS was 14.78 which is now nearly 0.5 units above budget.

The highest CCS sample was 18.0 from a rake of Q240 plant cane in the Pioneer Mill area.
