#### Comments:

The Burdekin mills crushed more than 425,000 tonnes of cane for the week – the highest weekly throughput so far this season.

All four Burdekin mills crushed above budget. Invicta, Kalamia and Inkerman all posted the highest throughputs for the year. Pioneer fell just shy of another 90,000 tonne week.

Kalamia recorded the best weekly throughput since 2005.

Cane continues to be transferred out of the Inkerman area to Pioneer and Invicta mills for processing.

Total throughput for the season to date is now just over 3 million tonnes.

Average weekly CCS was 14.96 which is now nearly 0.5 units above budget.

The highest CCS sample was 18.3 from a rake of Q240 fourth ratoon in the Inkerman Mill area.
