

BIOETHANOL

It's what we do

We've been manufacturing bioethanol in Queensland for almost a *century*.

Our Sarina Distillery is *Queensland's* only manufacturer of bioethanol and Australia's largest producer of bioethanol derived from sugarcane.

We produce up to *60 megalitres* of bioethanol annually.

We are one of
**AUSTRALIA'S
LEADING**
manufacturers of
ethanol products

WE SUPPLY
the fuel, printing, food &
beverage, pharmaceutical and
general industrial markets

In 2020, we more than
doubled bioethanol
supplied for sanitisers and
cleaning products to
**FIGHT AGAINST
COVID-19**

60 megalitres of
bioethanol is enough
to power
400,000 CARS
on E10 fuel for a year

Our bioethanol can offset more
than 50,000 tonnes of CO₂e
each year – equivalent
to taking **15,000
CARS OFF
THE ROAD**

We produce about
280 MEGALITRES
of Bio Dunder® for use
as liquid stockfeed
and fertiliser

We've been manufacturing ethanol since 1925
