

SARINA REGION

At a glance

Wilmar Sugar Australia has three sites in the Sarina region: Plane Creek Mill, Sarina BioEthanol Distillery and Oonooie stockfeed and fertiliser facility.

Plane Creek Mill was established in 1896 and produces raw sugar, molasses and renewable energy. It provides steam and power to the neighbouring distillery, which was established in 1927.

Sarina Distillery is one of Australia's leading producers of bioethanol, and also manufactures Bio Dunder® as a co-product of the ethanol distilling process. This Bio Dunder® is piped to our Oonooie facility, where it is mixed to create liquid fertiliser and stockfeed for customers.

Each year, in the Sarina region, we:

Crush
1.2 MILLION
tonnes of sugarcane*

Manufacture
170,000 TONNES
of raw sugar*

Manufacture up to
60 MEGALITRES
of bioethanol and 280 megalitres
of Bio Dunder® for use as liquid
stockfeed and fertiliser

Invest
\$17.6 MILLION
in capital and maintenance at
Plane Creek Mill*

Provide jobs for
260
Queenslanders

Own and operate
8 LOCOMOTIVES,
2,314 cane bins and 167km
of cane railway network
