Comments:

Improved weather conditions saw just over 200,000 tonnes of cane crushed for the week.

The fine, cool weather also saw CCS levels slowly increase to 11.65. This pushed the season-to-date CCS to 11.33 units.

The Herbert crop continues to cut above estimate with a recent re-forecast applied to lift the 2022 crop estimate to 4.7 million tonnes

Victoria Mill will undertake a 12-hour B-side maintenance stop on Tuesday 26 July.

A reminder that any work being undertaken near the cane rail network poses a safety risk.

Please communicate any planned work to the traffic office and ensure appropriate signage is used.
