Comments:

The Herbert mills crushed more than 213,700 tonnes of cane for the week, taking the season total to just shy of 990,000 tonnes.

There was a slight increase of 0.52 of a unit in CCS levels on the previous week. The season-to-date CCS is tracking below the budgeted 12.7 units.

Victoria Mill will have a planned 12-hour A-side mill cleaning intermission on Tuesday 2 August and Macknade Mill will undertake a maintenance stop on Wednesday 3 August.

Locomotive crews have reported instances of visibility issues with early morning fog. Motorists and harvesting contractors are urged to take extra caution while these conditions prevail.
