Comments:

The Herbert mills processed 203,521 tonnes of cane for the week.

CCS levels continue to improve with the cool and fine weather conditions, achieving 13.16 units average for the week – up 0.2 from the previous week.

The season-to-date CCS remains under budget at 12.74 units.

Mill throughputs continue to be impacted by standover and cane with low purity levels.

Victoria's B-side mill will undertake a 12-hour cleaning intermission on Thursday 7 September.

As always, please take care around our rail network. Approach all cane railway level crossings with caution and use your train brain.

Lindsay Wheeler Cane Supply Manager Herbert Region
