Comments:

The Herbert mills processed a total of 188,671 tonnes of cane for the week.

Wet weather impacted operations late in the week, which allowed Macknade to bring forward a four-hour shredder stop to Sunday.

There was a slight decrease in CCS levels of 0.2 units from the previous week. The season-to-date average remains below budget at 12.93 units.

Growers are urged to compare the physical areas left to harvest with what is listed in their field book on GrowerWeb.

Any variations should be reported to Wilmar Sugar on 4776 4390.

Please remember to use your train brain and always give way to cane trains.
