#### Comments:

Just over 160,000 tonnes of cane were processed for the week, bringing the season-to-date total for the Herbert to just over 350,000 tonnes.

The average weekly CCS was 12.57, which was above budget.

Remember our locos are towing heavy loads and can take up to 1km to come to a complete stop.

Our cane trains are operating around the clock, seven days a week, during the crushing season.
