Comments:

About 143,400 tonnes of cane were processed for the week, bringing the season-to-date total to more than 1M tonnes.

Weekly throughput was below budget. The major causes of lost time were a failed coupling on A3 mill and industrial action.

Average weekly CCS dropped slightly to 12.65 units. The season to date CCS settled at 12.62, which is below budget.

Industrial action is planned for Monday and Thursday this week.
