Q200	9.4	13.47	Q250	1.3	13.26
Q232	9.0	11.82	Q231	0.9	12.06

Comments:

The Herbert mills processed just over 172,000 tonnes of cane for the week, bringing the season-to-date figure to just over 1.8 million tonnes. This represents about 44% of the forecast crop.

The average CCS for the week was 12.42, which was below the season-to-date average

With school holidays under way, parents and guardians are encouraged to warn their children about the dangers of playing near cane railway lines.

Please use your train brain and always give way to cane trains. A fully loaded cane train can take up to one kilometre to stop.
