Comments:

More than 212,000 tonnes of cane were processed for the week, bringing the season-to-date total to just over 2M.

We have now processed close to 50 per cent of the total forecast crop.

The average CCS for the week was 12.52, which is below the season-to-date average.

Please remember to give way to cane trains and a reminder that a fully loaded cane train can take up to one kilometre to stop.
