Comments:

More than 186,000 tonnes of cane were crushed for the week, bringing the season-to-date total to 2.97M tonnes.

The average weekly CCS was 12.42, which is slightly under the season-to-date average of 12.55 units.

Growers are reminded to submit a re-estimate request if they are not confident of the current projection for the farms.

Our field logistics team is currently preparing the 2025 farm forecast maps to mail out to growers. Please take the time to update and return your farm maps as this information helps us to make accurate crop forecasts for next year.

Please continue to use your train brain and always take care around our cane rail network. Our cane trains are working 24 hours.
