#### Comments:

More than 154,800 tonnes of cane were crushed for the week, bringing the season-to-date total to about 3.65M tonnes.

The average weekly CCS was 11.58, which is slightly down on last week's average of 12.03 and below the season-to-date average of 12.47 units.

Recent rainfall has impacted harvesting in some areas, with more rain forecast for the coming week. Please stay in contact with the operations centre if there are any issues with cane supply.

Our logistics team is available to assist growers if required and will be completing visual inspections of remaining cane blocks.

Please continue to use your train brain and always take care around our cane rail network. Our cane trains operate 24 hours a day, seven days a week.
