Q232	11.6	12.06	SRA28	3.7	12.32
Q200	10.2	12.05	Q250	2.9	11.86
Q240	6.9	12.26	SRA14	2.7	11.07

Comments:

Just under 173,000 tonnes of cane were crushed for the week, bringing the season-to-date total to almost 455,000 tonnes.

The average weekly CCS was 12.26, which is slightly below the season-to-date average of 12.24 units.

Cane quality remains high, however there have been rakes of low-quality cane which have caused factory chokes and reduced crush rates.

Our logistics team is working with growers and harvesting contractors on this issue and have requested that bin tickets be used to identify low-quality cane.

Now that the school holidays are under way, we ask parents and guardians to remind their children about the dangers of playing on or near the cane rail network.

Please continue to use your train brain and always take care around our cane rail network. Our cane trains are working 24 hours a day, seven days a week.
