Q200	9.0	14.07	Q242	2.6	10.59
Q232	8.5	12.29	Q183	1.7	12.29

Comments:

The Herbert mills processed just over 157,000 tonnes of cane for the week, bringing the season-to-date total to 2.18M tonnes.

The average weekly CCS was 12.80 and remains above the season-to-date average of 12.71 units.

The next Long Pocket Bridge upgrade works are scheduled for Wednesday 24 September. Additional works have been scheduled for 8 October.

We would like to thank harvesting groups for their ongoing communication with the traffic office, and ask that all field book tickets be checked and filled out correctly.

With school holidays now under way, parents and carers are asked to remind children to stay away from the cane railway network.

Our cane trains work around the clock, seven days a week.
