#### Comments:

The Herbert mills processed just over 187,000 tonnes of cane for the week, bringing the season-to-date total to 2.36M tonnes.

The average weekly CCS was 13.10 and remains above the season-to-date average of 12.75 units.

The next Long Pocket Bridge upgrade works are scheduled for Wednesday 8 October.

We would like to thank harvesting groups for their ongoing communication with the traffic office. A reminder to please ensure all field book tickets are checked and filled out correctly.

With school holidays continuing this week, parents and carers are asked to remind children to stay away from the cane railway network.

Our cane trains work around the clock, seven days a week.
