Q232	7.7	12.54	Q183	1.5	13.60
Q240	7.5	12.54	Q231	1.4	12.97

Comments:

The Herbert mills processed just under 184,000 tonnes of cane for the week, bringing the season-to-date total to 3.31M tonnes.

The average weekly CCS was 12.81, which is just below the season-to-date average of 12.82 units.

Rainfall in the district hampered some groups that were harvesting along the western line. The forecast is showing another possible rain event later this week.

Thank you to the field sector for continuing to work with our operations team and communicate issues as they arise. Could all updates/changes for the traffic office be lodged by 12 noon daily.

Please remember to stay cane train aware, particularly when approaching crossings.

Our cane trains work around the clock, seven days a week.

Chris Winship
Cane Supply Manager
Herbert Region
