Comments:

The 2025 season came to a close on Sunday 23 November with the final bin tipped at 2.27pm at Victoria Mill.

Macknade Mill crushed out on Thursday 20 November at 2.20am.

The Herbert mills processed just over 143,000 tonnes of cane for the final week of the season, bringing the season total to 3.82M tonnes.

The provisional season CCS was 12.82 units.

We would like to thank our growers and harvesting contractors for working with us through a challenging season. Your cooperation with our operations centre was gratefully received.

Our thanks also to the Victoria and Macknade Mill teams for assistance with supply challenges, coordination of resources and timely communications.

I'd like to acknowledge our locomotive crews, traffic and yard controllers, logistics officers and civil department for their resolve and determination to get the 2025 crop off.

Looking forward to working with you all again next season. Have a safe Christmas and New Year.

Chris Winship
