Comments:

Just over 187,000 tonnes of cane were crushed for the week.

There was a slight decrease in CCS levels, with the season-to-date CCS figure is now 13.12 units.

Victoria's B-side mill will have a 12-hour cleaning intermission on Tuesday 17 November.

Based on an expected final crop of 4.24 million tonnes, forecast factory throughputs, and no major factory or weather disruptions, the last day of harvesting for the Herbert mills is expected to be Saturday 28 November.

The finish date will be reviewed regularly and we will advise growers of any changes via GrowerWeb and the weekly production report in the local media.
