Comments:

The Herbert mills crushed almost 202,000 tonnes of cane for the week and have now passed the milestone for the first million tonnes crushed for 2021.

More than a quarter of the newly re-estimated Herbert crop has now been processed.

There was an increase of 0.34 of a unit in CCS for the second consecutive week in a row to take the season-to-date average to 12.37 units.

Victoria's B-side mill had a 12-hour scheduled maintenance stop during the week.

This week, Victoria's A-side mill will have a 12-hour maintenance stop on Tuesday 10 August. Macknade Mill will have a scheduled four-hour shredder maintenance stop on Wednesday 11 August.

There was a near hit between a lime truck and a cane train on the weekend. The truck undertook an emergency stop at a level crossing, causing its trailer to overturn.

We once again appeal to all road users to approach level crossings with caution and always give way to cane trains.
