#### Comments:

Just under 169,000 tonnes of cane were crushed for the week.

Victoria Mill's A-side had a 12-hour planned cleaning and maintenance stop on Wednesday.

There are no further planned maintenance stops for the 2021 season.

There was a slight decrease in CCS levels with the season-to-date CCS figure remaining at 12.74 units

Based on revised crop trends, forecast throughputs and no rain disruptions, the last day of harvesting for the Herbert mills is expected to be Tuesday 23 November.

The finish date will be reviewed daily and we will advise growers of any changes via GrowerWeb.
