

SARINA REGION

At a glance

Wilmar Sugar and Renewables has three sites in the Sarina region: Plane Creek Mill, Sarina Distillery and Oonooie stockfeed and fertiliser facility.

Plane Creek Mill was established in 1896 and produces raw sugar, molasses and renewable energy. It provides steam and power to the neighbouring distillery, which was established in 1927.

Sarina Distillery is one of Australia's leading manufacturers of bioethanol, and also produces dunder as a co-product of the ethanol distilling process. This dunder is piped to our Oonooie facility, where it is mixed to create Bio Dunder® liquid fertilisers and SuplaFlo® liquid stockfeed supplements for customers.

Each year, in the Sarina region, we:

Crush

1.3 MILLION
tonnes of sugarcane*

Manufacture

176,000 TONNES
of raw sugar*

Manufacture

55 MEGALITRES
of bioethanol and 269 megalitres
of dunder for use as liquid
stockfeed and fertiliser*

Invest

\$24 MILLION
in capital and maintenance at Plane
Creek Mill and the Sarina Distillery*

Provide jobs for

245
people

Own and operate

8 LOCOMOTIVES,
2,510 cane bins and 163km
of cane railway network
