Variety	%	CCS	Variety	%	CCS
Q240	61	15.65	Q208	8	15.78
KQ228	11	14.58	WSRA17	4	15.01
Q183	10	15.88	SRA23	3	14.14

Comments:

Congratulations to Kalamia and Inkerman mills on the successful completion of the 2026 season.

On behalf of our team at Wilmar Sugar and Renewables, thank you to the growing and harvesting sectors for your support during the season.

Throughput for week 20 was just over 332,000 tonnes of cane in a week that included a cleaning intermission at Invicta Mill and unscheduled stops at Inkerman, Pioneer and Kalamia mills.

Average weekly CCS was 15.38, which is 0.40 of a unit above budget.

The highest CCS recorded for the week was 18.50 from a rake of Q240 second ratoon supplied from the Stockham Road productivity district.

We are nearing the end of the Burdekin season. Based on the expected final crop and no major disruptions, we expect Pioneer and Invicta mills to finish this week.

A reminder to growers, harvesting contractors and the travelling public to remain vigilant around our cane rail network as we work through the final days of the Burdekin season.

Chris Scovazzi
