Q232	7.1	12.53	SRA36	1.6	13.86
Q240	6.8	12.67	SRA28	1.4	12.56

Comments:

The Herbert mills processed about 147,600 tonnes of cane for the week, pushing the season-to-date total to 3.69M tonnes.

Weekly CCS decreased slightly from the previous week to average 12.89 units. This is above budget and brings the season-to-date CCS to 13.68.

Our operations teams have been continuing to work with harvesting groups to ensure the 2026 crop is fully harvested.

Macknade Mill was taken offline on Friday 6 November, signalling the first stage of our staggered finish for the Herbert region. Victoria Mill continued to operate to process all remaining cane.

The 2027 farm forecast maps have been posted to GrowerWeb. Please review and return your maps as soon as possible or contact our team for assistance.

As we reach the final days of the 2026 season, I'd like to remind locals and visitors to remain vigilant around our cane rail network and report any unsafe behaviour to the police.

Remember, cane trains can't swerve and they can't stop quickly. Please approach all crossings with caution, obey all signs and signals, and always give way to cane trains.
