Q208	24.2	14.32	Q253	9.5	14.24
Q240	22.4	14.39	KQ228	3.3	14.42
SRA9	13.9	14.07	SRA26	2.2	15.54
Q183	10.5	13.98	SRA21	1.5	13.12

Comments

Proserpine Mill processed close to 82,300 tonnes of cane for the week, which is the highest weekly throughput for the season to date. The season total is now just over 572,000 tonnes.

Average weekly CCS came in above budget, at 14.22 units.

The highest weekly CCS sample for the week was 17.00 units, from a rake of KQ228 plant cane in the Kelsey Creek District.

Harvesting operators are again reminded to follow siding procedures when delivering or collecting bins.

These procedures are designed to safeguard the safety of all users and maintain the efficient operation of our sidings. Please check that all your operators have completed the mandatory siding induction.

Our cane trains work around the clock, seven days a week, so please continue to use your train brain and always take care around the cane rail network.
