Comments

Proserpine Mill processed about 84,990 tonnes of cane for the week, bringing the season-to-date total to more than 1,055,136 tonnes.

Average weekly CCS came in above budget, at 15.06 units.

The highest weekly CCS sample for the week was 18.26 units, from a rake of Q183 Ratoon cane in the Lethebrook productivity district.

Now that the school holidays have started, we again ask parents and guardians to remind their children about the dangers of playing on or near the cane rail network.

Please only cross cane rail lines at designated crossings and always look out for cane trains before proceeding.

Our cane trains work around the clock, seven days a week, so remember to use your train brain.
