Q253	14.0	14.99	Q247	1.6	16.16

Comments

Proserpine Mill processed close to 87,600 tonnes of cane for the week, bringing the season-to-date total to more than 1.14M tonnes.

Average weekly CCS came in above budget, at 15.13 units.

The highest weekly CCS sample for the week was 17.65 units, from a rake of SRA 9 plant cane in the Upriver productivity district.

With school holidays in their second week, we again ask parents and guardians to remind their children about the dangers of playing on or near the cane rail network.

Our cane trains work around the clock, seven days a week, so please continue to use your train brain and always take care around our network. A fully loaded cane train can take up to one kilometre to pull up.
