Q240	18.1	15.13	Q183	9.9	15.44
Q253	16.5	14.53	SRA12	4.2	15.32
Q208	15.3	15.50	Q247	2.3	15.56
SRA9	13.0	14.96	KQ228	1.8	14.71

Comments

Proserpine Mill processed close to 74,000 tonnes of cane for the week, bringing the season-to-date total to more than 1.21M tonnes.

Average weekly CCS came in above budget, at 15.10 units.

The highest weekly CCS sample for the week was 17.92 units, from a rake of SRA 26 plant cane in the Elaroo productivity district.

Based on the expected final crop and no major disruptions, we currently expect the last day of harvesting in the Proserpine Mill area to be Wednesday 21 October.

Growers are asked to check that the estimate of cane remaining on each of their blocks is current, and to communicate any changes to their logistics officer.

A reminder to growers, harvesting contractors and the travelling public to remain vigilant around our cane rail network as we work through the final weeks of the season.

Please remember to cross cane rail lines at designated crossings only and always check for cane trains before proceeding.

Our cane trains work around the clock, seven days a week. Use your train brain and always take care around the cane rail network.
