#### Comments:

Plane Creek Mill crushed close to 54,000 tonnes of cane for the week, bringing the season total to 82,743 tonnes.

Weekly throughput was impacted by a lengthy unscheduled stop in the latter part of the week, due to a failed maceration pump.

Week two saw a welcome improvement in CCS levels, with the weekly average closing out at 11.36.

The highest CCS for the week was 13.5, from a rake of KQ228 third ratoon from the Bolingbroke productivity district.

With school holidays now under way, parents and carers should remind their children not to play on or near the cane rail network.
