| | This week | Season to date |
|---------------------|-----------|----------------|
| Cane crushed | 66,353 | 438,883 |
| Average bin weight | 3.93 | 3.86 |
| CCS | 13.19 | 12.40 |

Cane variety performance for region

| Variety | % | CCS | Variety | % | CCS |
|---------|------|-------|---------|-----|-------|
| Q183 | 28.8 | 12.97 | Q242 | 6.8 | 13.24 |
| Q208 | 22.1 | 13.36 | KQ228 | 5.5 | 14.09 |
| Q240 | 11.7 | 13.41 | Q138 | 5.3 | 12.17 |
| Q253 | 9.5 | 13.05 | Q250 | 2.1 | 14.14 |

Comments:

Plane Creek Mill crushed just over 66,000 tonnes of cane for the week, bringing the season total to nearly 439,000 tonnes.

The major cause of lost time for the week was a shredder tip change on Wednesday afternoon.

This coming week, there will be a 14-hour planned maintenance stop on Tuesday 23 August.

There was a modest 0.26 of unit improvement in CCS over the previous week, taking the weekly CCS figure above 13 units for the first time this season. Average bin weights continued to improve.

The highest CCS honour for the week was shared between a rake of KQ228 1R from the Ilbilbie productivity area and a rake of Q242 3R from the Turners Paddock productivity area – both with a CCS of 15.5 units.
