

## Weekly production figures

### Wilmar Sugar Plane Creek Mill Week 11, Week ending 27 August 2022

	This week	Season to date
<b>Cane crushed</b>	58,781	497,664
Average bin weight	4.02	3.88
<b>CCS</b>	13.56	12.54

#### Cane variety performance for region

Variety	%	CCS	Variety	%	CCS
Q208	27.8	13.55	KQ228	3.7	14.52
Q183	22.2	13.52	Q252	3.4	13.83
Q253	13.1	13.34	SRA9	2.8	13.71
Q240	11.7	13.45	SRA13	2.8	14.09

#### Comments:

Just under 59,000 tonnes of cane were crushed for the week, bringing the season total to almost half a million tonnes.

This was a reasonable weekly throughput, given there was a 15-hour planned maintenance stop on Tuesday and an unplanned stop the following day due to failed sprocket on the prepared cane elevator.

On Friday, the factory undertook a shredder tip turn combined with a chemical clean on No. 4 evaporator.

Weekly average bin weights exceeded four tonnes for the first time this season, taking the season-to-date average bin weight to 3.88.

CCS levels continued an upward path resulting in season-to-date CCS closing out just above 12.50 units.

The highest CCS was 16.50 units from a rake of Q250 1st ratoon from the Koumala productivity district.
