Comments:

Plane Creek Mill passed the half a million tonnes crushed milestone on Sunday morning.

Just under 62,000 tonnes of cane was processed for the week, bringing the season total to nearly 560,000 tonnes.

Overnight rain on Friday had a significant impact on harvesting operations. As a result, crushing was brought to a halt early Saturday afternoon.

A reduced number of harvesting groups supplied cane on Saturday allowing crushing operations to resume on Sunday morning.

During the wet weather stop, crews took the opportunity to conduct a chemical clean.

The weekly CCS levels edged marginally higher by 0.1 of a unit taking the season-to-date CCS to 12.66 units.

The highest CCS was 16.25 units from a rake of Q208 3rd ratoon from the Dawlish productivity district.
