Comments:

Solid crushing rates saw Plane Creek Mill crush nearly 69,000 tonnes of cane for the week – the highest weekly throughput for the season.

There was a marginal improvement in CCS of 0.07 a unit over the previous week, taking the season-to-date CCS to 12.78 units.

Average bin weights fell markedly from the previous week. On occasion, the low bins weight presented some challenges with feeding station throughput.

The highest CCS was 16.4 units from a rake of Q208 3rd ratoon from the Dawlish productivity district.

With school holidays beginning this coming Friday (16 September), parents are urged to warn their children of the dangers of playing near cane railway lines.
