Cane variety performance for region

Variety	%	CCS	Variety	%	CCS
Q208	28.4	13.22	Q138	3.3	13.68
Q183	27.1	12.87	SRA9	2.9	13.82
Q240	19.4	12.75	SP80	2.1	13.15
Q253	7.6	12.68	Q252	1.7	13.58

Comments:

Plane Creek Mill had a reasonable throughput for the week with just under 66,000 tonnes crushed. This brought the season to date total to just under 1.1M tonnes.

A total of 73 per cent of the forecast 1.5 million tonne crop has been crushed to date.

Average weekly CCS was 13.04, down slightly from 13.28 the previous week. The season to date CCS closed out at 13.15 units.

The highest CCS was 15.6 units from a rake of Q138 1st ratoon from the Turnors Paddock productivity district.

This week, there is a 12-hour cleaning intermission planned for Thursday, 10 November.

Please continue to use your train brain and remain alert around our cane rail network. Do not linger near any part of the rail network, and only cross the line using designated crossings.

Remember our locos are towing heavy loads and can take up to 1km to come to a complete stop.

Our cane trains are in operation around the clock, seven days a week during the crushing season.
