Q240	24.6	12.98	SRA9	3.3	12.57
Q208	17.9	13.13	Q138	3.0	12.11
Q253	9.9	12.52	Q252	2.7	13.36

Comments:

Plane Creek Mill crushed just over 54,000 tonnes of cane for the week, bringing the season total to more than 1,146,000 tonnes.

Total mill throughput was below budget due to a number of stoppages throughout the week.

The planned 15-hour cleaning intermission on Thursday was extended by seven hours when a replacement injection water pump failed upon restart.

Further unplanned stops during the latter part of the week also affected overall throughput.

Average weekly CCS was 13.01, down slightly from 13.04 the previous week. The season to date CCS closed out at 13.14 units.

The highest CCS was 15.6 units from a rake of Q240 2nd ratoon from the Carmila productivity district.

Please continue to use your train brain and remain alert around our cane rail network. Do not linger near any part of the rail network, and only cross the line using designated crossings.

Remember our locos are towing heavy loads and can take up to 1km to come to a complete stop.

Our cane trains are in operation around the clock, seven days a week during the crushing season.
