Comments:

Plane Creek Mill crushed just over 21,000 tonnes of cane for the week, bringing the season-to-date total to more than 1.2M tonnes.

Crushing resumed on Sunday evening following an extended stop to repair the No.3 boiler grate.

Heavy rain across the supply district on Tuesday night brought harvesting operations to a halt for the remainder of the week.

The highest CCS was 14.25 units from a rake of Q208 5th Ratoon from the Koumala productivity district.

With the crushing season extending into the school holiday period, we ask parents and caregivers to talk to children about the dangers of playing on or around our cane rail network.

Do not linger near any part of the rail network, and only cross the line using designated crossings.

Remember our locos are towing heavy loads and can take up to 1km to come to a complete stop.

Our cane trains are in operation around the clock, seven days a week during the crushing season, including over the holiday period.
