Comments:

Plane Creek Mill crushed 52,461 tonnes of cane for the week, bringing the season total to just over 1.32M tonnes.

Crushing resumed early Monday morning following a wet weather stop the previous week.

There was a welcome improvement in CCS of 0.62 a unit over the previous week. The season-to-date CCS is still holding slightly above 13, closing out at 13.03 units.

The highest CCS was 14.80 units from a rake of Q208 6th Ratoon from the Cliftonville productivity district.

Wilmar Sugar plans to continue crushing through Christmas this year, provided there is adequate cane supply.

Logistics officers are contacting growers to gauge their interest in harvesting over this traditional holiday period.

With school holidays under way, we ask parents and carers to remind children that cane trains will continue to operate into January this season.

Please keep your train brain switched on. Be alert, stay off our rail network and always give way to cane trains.
