Comments:

Plane Creek Mill processed just under 53,000 tonnes of cane for the week, bringing the season-to-date total to 473,000 tonnes.

Crushing resumed on Monday morning following an extended stop to replace the shredder rotor bearings.

I would like to acknowledge our Wilmar employees who worked around the clock for a number of days to minimise the impact of the unscheduled stop.

Thanks also to Plane Creek growers and harvesting contractors for their understanding during this forced downtime.

Average weekly CCS was 13.45, down slightly from 13.71 the previous week. The season-to-date CCS closed out at 13.31 units.

The highest CCS was 15.85 units from a rake of KQ228 2nd Ratoon from the Carmila productivity district.
